DIMENSIONAL DATA

FEATURES

The New Star 87G24 Confinement recessed grid fixture is composed of a solid square housing die formed in CRS.

- 18-12 gauge cold rolled steel or stainless steel with continuous seam welds
- 16 gauge full length continuous staked piano hinge with welded ends
- Wide variety of lens options held in place with Z-Channel and weld studs
- Black neoprene gasket around interior door frame to prevent light leaks.
- Tamper resistance Torx head center pin screws standard

APPLICATION

- Confinement
- Gymnasiums
- Warehouses
- Schools
- Parking Structures
- Public Areas
- Locker Rooms
- Parking Structures
- Psychiatric Wards
- Detention Centers
- Public Housing Complexes

SPECIFICATION FEATURES

HOUSING:

Die formed, seam welded, and ground smooth (specify material and gauge). Incorporates a removable reflector unitized with all electrical components for easy installation and maintenance.

FRAME:

Die formed one-piece frame with tightly closed corners.

HINGE:

16 gauge full length continuous, staked piano hinge with welded ends. to prevent removal (material to match housing).

LENS:

Polycarbonate or tempered glass lens sealed to frame.

LENS RETAINER:

14 gauge cold rolled retaining angles attached to through door studs for positive lens clamping

ELECTRONICS:

Fluorescent:
Electronic Ballast <10% THD standard. RIF available. Lamps by others.

LED:

Available in three standard color temperatures 3500°K, 4000°K & 5000°K. Other color temperatures available, consult factory.

GASKET:

Black neoprene gasket around interior door frame to prevent light leaks.

FASTENERS:

Tamper resistant countersunk, flat head Torx screws, with center pin reject

FINISH:

White powdercoat finish following an iron phosphate pre-treatment.
