Transform New Star Lighting's versatile StarTile with a VKI Image. Vara Kamin Images (VKI) create memorable experiences. Rich in color, movement and texture, Kamin's paintings provide a positive point of focus while stimulating active imagination and inviting the viewer to a place of self-reflection. Images sit directly in a standard Grid while the recessed frame and StarTile backlight the Image for an even illumination. VKI Images can be configured as a standalone image or into a mural. Oval or circle configurations available, consult factory.
