**THE COMPLETECARE™
UNDERCABINET SERIES**

THE COMPLETECARE™ UNDERCABINET SERIES

THE COMPLETECARE™ UNDERCABINET SERIES

The CompleteCare™ Undercabinet is an ultra low profile design at 0.35" deep. It is designed for infection control, featuring hands-free activation for ON/OFF and dimming functions. Available in multiple lengths, this versatile task light is intended for patient rooms, nurse stations, commercial offices, laboratories, and more.

The CompleteCare™ Undercabinet Series features touch-free ON/OFF and dimming functionality, making it the perfect solution for infection control.

STEP 1. Wave hand over sensor to turn luminaire ON/OFF.

STEP 2. Hold hand steady over sensor (within 3") to activate dimming until desired light level is achieved, then pull hand away.

BUTTON SWITCH. Switch adjustable CCT: ON > 2700K > 3000K > 3500 > 4000K > 5000K

Choose from a variety of options and accessories. The CompleteCare™ Undercabinet Series can be linked end-to-end with the linking connector, or with an interconnect set in multiple lengths. It can also be hardwired with a remote driver, or plugged into an outlet with the 120V Adapter.

End-to-end
Connector

Interconnect cord set
(6", 12", and 24" lengths)

120-240V Adapter
(output 24V 1A)
